## EDUCATION

**Oregon State University** Corvallis, OR, US  
**Doctor of Philosophy in Electrical and Computer Engineering** Expected Mar. 2027  
**Minor in Artificial Intelligence**  
**Focus area:** Information Theory, Machine Learning, Perceptual Lossy Compression

**Oregon State University** Corvallis, OR, US  
**Master of Science in Electrical and Computer Engineering** Dec. 2024  
**Thesis:** *On Minimizing Symbol Error Probability using Beamforming in MIMO Gaussian Wiretap Channels*

**Posts and Telecommunications Institute of Technology** Hanoi, Vietnam  
**Bachelor of Engineering in Electronics and Communications Engineering** Mar. 2021  
Graduated in top 10 of Telecommunications Engineering Department  
**Thesis:** *Performance Enhancement of Satellite-based Free-Space Quantum Key Distribution Systems using Key Retransmission and Relaying Techniques*, Grade: 10/10

## RESEARCH INTERESTS

**Intersection of information theory and machine learning:** Rate-distortion-perception-classification representation for lossy compression, neural data compression, representation learning.

**Wireless communications and networks:** Channel capacity, signal processing, optimization, and machine learning for advanced MIMO communication systems, physical layer security for MIMO, beamforming techniques, wireless networking and technology for 5G/6G.

**Free-space quantum key distribution networks:** Design, analysis, and optimization of link-layer retransmissions and relaying techniques.

## RESEARCH EXPERIENCE

**Research Assistant, Communications and Signal Processing Group** Dec. 2022 - Present  
Oregon State University Corvallis, OR, US  
**Advisor:** Prof. Thanh Nguyen and Prof. Bella Bose  
**Topics:** Representation learning, neural data compression, statistical signal processing and Bayesian inference, non-convex optimization, wireless communications, physical layer security.  
**Project:** *Universal rate-distortion-classification representations for lossy compression*

- Develop a universal representation framework in lossy compression to handle multiple distortion-classification tradeoffs with a single encoder.
- Prove the approximate achievability of the universal rate-distortion-classification function using theoretical information-theoretic methods.
- Implement and evaluate novel deep learning algorithms for classification-enhanced neural image compression models (using Autoencoder + GAN + CNN Classifier) on MNIST/ SVHN datasets with PyTorch, showcasing minimal performance loss compared to designing separate encoders for each objective.
- **Outputs:** 1 conference paper submission + 1 journal paper manuscript.

**Project:** *Design and Security Analysis of Symbol Error Probability-based Beamforming in MIMO Gaussian Wiretap Channels*

- Leading researcher and first author of **01** paper on low-complexity, high-performance symbol error probability minimization-based beamforming in Gaussian MIMO Wiretap Channels.
- Formulated a mathematical model and PHY signal design (binary antipodal signals and M-ary detection schemes) and proposed a novel low-complexity algorithm utilizing KKT conditions, generalized eigen-decomposition, and projected gradient descent.
- Conducted numerical experiments in MATLAB to evaluate the proposed beamforming scheme, analyzed results, and authored the paper.
- **Outputs:** 1 published conference paper and 1 journal paper submission [1], [2].

**Research Assistant, Optical Communications Research Group** Mar. 2019 - Mar. 2023  
Posts and Telecommunications Institute of Technology Hanoi, Vietnam  
**Advisor:** Prof. Vuong Mai and Prof. Ngoc Dang

**Topics:** Free-space quantum key distribution network, optical communication systems.

**Project:** *Design and Security Analysis of Satellite-based Free-Space Quantum Key Distribution Systems for Wireless and Vehicular Networks*

**Sponsor:** National Foundation for Science and Technology Development (NAFOSTED, Vietnam)

- Leading researcher and first author of **04** papers on satellite-based free-space quantum key distribution (QKD) systems for wireless networks.
- Innovated project ideas by expanding terrestrial binary phase shift keying (BPSK) modulation/direct-detection/QKD systems to satellite-based quadrature phase shift keying (QPSK) modulation/QKD systems.
- Designed and analyzed satellite-based QKD systems, including link-layer retransmissions, relaying techniques, and performance evaluations under atmospheric turbulence-induced phase fluctuations.
- Executed numerical experiments in MATLAB to assess system performance, analyzed results, and authored research papers.
- **Outputs:** 2 published conference papers and 2 published journal papers [3], [4], [5], [6].

## INDUSTRY EXPERIENCE

**Mobifone Telecommunications Corporation**  
*Networking and Communication Engineer Intern*

Sept. 2020 - Dec. 2020  
Hanoi, Vietnam

- Conducted an in-depth study of technical documents to gain expertise in the 4G/LTE protocol and its applications in the telecommunications industry.
- Investigated and analyzed system and network operations, gaining valuable insights into network management and monitoring systems.

**Viettel High Technology Industries Corporation**  
*Research and Development Intern*

Jun. 2019 - Sept. 2019  
Hanoi, Vietnam

- Completed a competitive summer course on 4G/LTE Protocol Development, awarded a certificate for the top-performing project.
- Developed a multi-client TCP user client-server system to handle login, score retrieval, and logout requests over multi-threaded processes:

- Designed a TCP server to authenticate clients and respond with scores, using unique threads for each client to handle simultaneous requests.
- Available at: <https://github.com/DinhNamHMU/ScoreSchoolSystem>.

- **Tools/Technologies:** C, TCP/UDP Library, Linux, Functional Programming.

## TEACHING EXPERIENCE

**Teaching Assistant, Electrical Engineering and Computer Science** Mar. 2022 - Present  
Oregon State University Corvallis, OR, US

- **Courses:** ECE 353 - Introduction To Probability and Random Signals (3 quarters), ECE 351 - Signals and Systems I (2 quarters), ECE 352 - Signals and Systems II (3 quarters), CS 372 - Introduction to Computer Networks (1 quarter), ENGR 201 - Electrical Fundamentals I (4 quarters), ECE 271 - Digital Logic Design (1 quarter).
- **Responsibilities:** Grading assignments and exams, holding office hours and review sessions, and improving course materials.

## TRAINING COURSES

AI 531 - Artificial Intelligence, AI 539 - Introduction to Online Learning, AI 534 - Machine Learning, AI 535 - Deep Learning, AI 539 - Information Theory, AI 586 - Applied Matrix Analysis, AI 539 - Convex Optimization, ECE 565 - Estimation, Filtering, and Detection, CS 527 - Error-Correcting Codes, ECE 563 - Wireless Communications Networks, ECE 669 - Communications System Design, ECE 564 - Digital Signal Processing, ECE 560 - Stochastic Signals and Systems, ECE 550 - Linear Systems.

## TECHNICAL SKILLS

**Quantitative Research:** Mathematical Modeling, Optimization, Statistics and Probability Theory.  
**Programming Skills:** Python, MATLAB, C/C++, L<sup>A</sup>T<sub>E</sub>X.  
**Software Tools:** Pytorch, Tensorflow, NumPy, Pandas, SciPy, MATLAB Toolboxes, CVX.  
**Research:** Leading projects, teamwork, communication, problem-solving, programming, simulations, performance evaluation, presenting findings, and academic writing.

## AWARDS & HONORS

Graduate School's Scholarly Presentation Award – Oregon State University 2024  
SVTECH Scholarship – SV Technologies JSC 2021  
*Awarded to 5 outstanding students at the Posts and Telecommunications Institute of Technology*  
Participation Scholarship, 8th Vietnam School of Science – International Centre for Interdisciplinary Science and Education 2020  
Second Prize, National Scientific Research Contest – Vietnam Ministry of Education and Training 2020  
First Prize, Scientific Research Contest – Posts and Telecommunications Institute of Technology 2019  
Second Prize in Physics – Provincial Excellent Student Competition, Vietnam 2012  
First Prize in Physics – School Level Excellent Student Competition, Vietnam 2011, 2012, 2013

## REVIEWER SERVICE

- 2023 IEEE International Conference on Communications Workshops
- IEEE Wireless Communications Magazine, 2024
- IEEE Access, 2024
